

**High West Silver OMG**   
**Pure Rye**

**49.3%**

Barely aged white whiskey. Huge new-make nose, soaked grain and green apple, then rye-driven mint and spice. Bursting spice and mint in the mouth, quick hot fireworks, long gripping finish; somewhat drying. Hot, but holds your attention. Lower distillation proof (134) leaves more room for flavor on this one, and some water makes it enjoyable...if I could just get past that new-make nose I can't help thinking of as "too young."
