

Lark Para

43%

Lark Distillery celebrates its 20th year in 2012 and it's starting to settle on a house style: big apple fruity whiskey with menthol, candy cough drop, and hickory notes, and some red berry fruits from maturation in quarter casks made from port barrels. This special bottling uses casks made of wood that held 100 year old Para Port, among the world's finest. All the Lark traits are there, with a liqueur-like bonus. Intriguing.
