

Connemara Bog Oak

57.5%

Bog oak is oak preserved in Irish peat bogs for 5,000 years, and for this whiskey, cask heads made of it are used for maturation. The whiskey is 3 year old Turf Mor, only a year older, then mixed with some older whiskeys, and it's intriguing. This has all the oily, burning dust, smoky notes of a standard Connemara, but the rubbery youthfulness of Turf Mor is gone, and this is sweet, with orange notes, and a long, peaty, sweet finish. € 250
