

Thomson 10 year old 
40%

Thomson is a small, independent New Zealand whisky company with a limited amount of stock originally distilled at the Willowbank distillery, and this is as young as New Zealand whisky currently gets. One suspects it would have benefited from a couple more years, but its simple sugar and spice combo and rich citrus heart make it an uncomplicated but very drinkable session malt. It's a waltz of a whisky that kicks a bit at the death. NZ\$85
