

Black Grouse Alpha Edition

40%

Arguably the most successful of the Famous Grouse extensions (well, the competition includes Snow Grouse, for Pete's sake!), the Black Grouse brought ever-popular peat into the mix, a move that was followed by a peatier version of Johnnie Walker Black Label. The label says this is richer and peatier, and it is. But this scores most for a chicory/coffee and liquid licorice undercarpet that makes it very palatable indeed.
