

Seagram's VO Gold

40%

Darker gold in the glass than regular VO, but sporting that same VO nose of caramel and dry corn.

Fuller grain sweetness in the mouth, with some nice light fruitiness—white peach, seckel pear—coming out, and there's a sweet cinnamon smear along the roof of the mouth. Dries significantly toward the end, and finishes quickly, but with everything in good order.

—Vol. 21, #3
