

Big Peat Small Batch

53.6%

The original Big Peat was a mix of smoky Islay malts and was already up there with the very best competition in the category, even though many of the others were bottled at cask strength. I scored it at 90. Now it's back to play in the big boys' pool with a killer cask strength whisky of its own. This is to whisky what AC/DC is to heavy rock: old school, predictable, but great and exactly what fans want.

—Vol. 22, #1
