

Arran Single Malt
46%

Highland (Isle of Arran) single malt scotch Color: Straw Gold Aroma: Youthful. Pears in syrup, honeysuckle, and vanilla with a hint of caramel and citrus. Palate: Vibrant, somewhat youthful flavors that echo its aroma, finishing slightly sweet and a little fiery (because of its age). General Comments: The lack of chill-filtering certainly makes this whisky more flavorful and dynamic than its filtered brethren. It also tastes a little more mature. This shows how a whisky can be affected by chill-filtering. I expect this whisky to continue improving with additional aging. Available nationwide.
