Unaged corn whiskey from Philadelphia. The distinctive white corn spirit smell: crushed corn leaves, wet cornmeal, hint of fruit and split stone. A singular flavor, though: the usual flabby, green sweetness isn't here. Instead, there's a dry, solid corn flavor, something that tastes complete, arrived. I could ask for more complexity, but the focused, dry intensity of it has a singular appeal, asking only ice — or a lager chaser — to make a great afternoon.
