

Teeling Hybrid Malt Whisky Edition 1

44.7%

Proof there is life after Cooley. Jack Teeling and whiskey innovator Alex Chasko kept the independent flame alive by moving on. This whisky isn't a revolution: it's a mix of Irish (Cooley) and scotch (Bruichladdich). That's not a new idea, and it does what you might predict. It starts with a sweet, fruity Irishness, then earthier, spicier Scottish notes kick in. It works fine, but this is a placeholder whisky. Expect a lot more in the coming months.
