

**T.J. Pottinger
Sugar*Shine**

50%

Not cheap sugar "squeezins," this is mashed from 50% corn and 50% cane sugar, run on an alembic still by two Beams whose great-grandfathers were J.W. Dant and Minor Case Beam: some credibility. Clear as glass, a big corn nose tinged with light caramel and violets. Nicely sweet and warm, grassy-fresh and east to hold in the mouth. Clean, straightforward stuff.

—Vol. 22, #1
