×	Paul John Edited	×
	46%	
	Edited is the medium peated version of Paul John, and will be followed later in the year with a big peated one. This will do for now, though. The whisky is once more intense and fruity but this time it plays off against a more herbal green apple note, smoke from the hearth, and a touch of spice. There's also cinnamon—which is fast becoming a house style. Encouraging stuff.	I
