

## **Stauning Traditional 2nd Edition**

**55%**

Denmark often seems to live in the shadow of Sweden, and certainly that has been the case with whisky. But slowly and surely a revolution is happening there, and I suspect that Stauning will be right at the forefront of it. This is another work in progress: pleasant, well made, and potentially very good indeed. The dominant flavors are gooseberry, sour apple, and pepper. Good as an aperitif. 695 Krone/500 ml

—Vol. 23, #1
