

Jim Beam Single Barrel

47.5%

More oak, intensity, depth, maturity, and character than the standard Jim Beam white. Darker sugars too, showing more caramel and light toffee, less honeyed corn and vanilla (although those notes are certainly still present). Subtle mint and cinnamon spice, along with soft fruit and light tobacco on the finish round out the flavor profile. A bourbon comfortably positioned between Jim Beam white and the more premium Signature Series releases.

—Vol. 23, #2
