

Coppersea Raw Rye

45%

Coppersea uses New York grain (75% rye, 25% malt), mashed in wooden tanks and distilled in direct-fire copper pot stills. This unaged spirit is highly aromatic: hay, sunny meadow, hints of lavender and tansy, honeydew melon. Brilliantly herbal flavors, sweet grass, gobs of white pepper, lemon balm, and a long-lingering sweet heat. Almost more like an *eau de vie* than a whiskey, with layer upon layer to discover. Heretical thought: this might be wasted on a barrel.
