

**American Born Apple
Pie Moonshine**

41.5%

Spiced apple cider on the nose is a little more spice than cider, with strong cinnamon, nutmeg, and allspice. Baked apple is there on the opening, but it doesn't take long for the spices to take over, especially the cinnamon, which dominates. The cinnamon here leans more toward Red Hots than cinnamon stick, and by the time we get to the finish, it has completely conquered this spirit. May have been better labeled Spicy Cinnamon Apple Pie Moonshine.
