

Catch Fire Cinnamon

30%

Cinnamon is reputed to have medicinal qualities, but you can bet those who drink Catch Fire

Cinnamon do so for the incinerating jolt of sweet, spicy heat. Cinnamon hearts and hints of grain dust, almost like those cinnamon sticks in Christmas punch. Sweet, but not cloying. A creamy mouthfeel and touch of whisky wood remind us, if vaguely, that Catch Fire is whisky. The Lynne Truss of flavored whiskies: shoots, winces, and leaves with a long glowing finish.
