

Wyoming Single Barrel Bourbon (#1056)

44%

Wyoming Whiskey (Kirby, Wyo.) is making bourbon from Wyoming grain, on a column still, aged in full-sized barrels...in the Wyoming climate. Minty, grassy, meadow-varied plants; a bit of cedar and old clothes. Mouth is fuller, with more corn sweetness and balance than the small batch (*see below*).

Notes of sweet citrus, rye punchiness, and that cedar flit by quickly in the mouth, and the finish is long and smooth. Much preferred over the small batch.

—Vol. 24, #1
