

Wigle Wheat White Ash 
(Small Cask Series)

46%

Wigle's also doing a series of finishing experiments with the addition of honeycombed wood chunks to their organic wheat whiskey; this one uses white ash. Sweeter nose than the straight-up wheat whiskey (*see below*); mouth is cleaner, and the astringency I noted on the end is ameliorated. All a matter of degrees though; quite similar to the regular wheat whiskey. Price is per 375 ml.
