

Tap 8 Rye Sherry Finished

41.5%

Heavy caramel, hints of pansies, dustiness, warming spices, gentle pepper, and bushels of fruit. The *amontillado* sherry finish gives a tannic red wine feel without much wineyness. About that finish: rather than “rejuvenating” barrels by pouring in sherry and swishing it around before adding the whisky, sherry was blended directly with mature 8 year old Canadian rye, which then spent two months in American oak barrels. Whisky purists may recoil, but the result is very tasty dram.

(U.S. only)
