

Talisker Skye

45.8%

The latest release from Talisker is an NAS bottling which contains whisky matured in toasted and refill American oak casks.

According to the distiller, this is "An easy-drinking Talisker...more approachable, but still definitely Talisker." Certainly approachable on the nose, with tangerines, honey, and milk chocolate, before ozone and peat smoke develop.

Ginger and a hint of coal tar. Medium-bodied, with citrus fruit and increasingly hot spices, though never overwhelming. Spicy peat, white pepper, and aniseed in a nutty finish. £33

—Vol. 24, #2
