

Ardbeg Supernova 2015 Release

54.3%

Apparently this is the final Supernova release and the Ardbeg team has ensured it goes out with all guns blazing. Although it seems calm initially—there's a minty and sweet spicy element to the fore—the smoke begins to push through in the guise of creosote, then sootiness which, in turn, mingles with seaweed aromas. The peat dominates the palate but there is sufficient oiliness to round it out and add layers of smoked fish, and dried grasses. Farewell.

—Vol. 24, #4
