

Cavalry

45%

Although it's not on the label, Cavalry uses the TerrePURE technology on 4 month old MGP whiskey. Its short time in wood shows. No traditional notes of bourbon sweetness, not even an earthy hint of wood found in many younger bourbons. This is more reminiscent of a neutral grain spirit than bourbon, but masked in the alcohol-centric flavor is a slight sweetness likely representing oak and a hint of grain. Sourced whiskey.

—Vol. 25, #1
