

Ailsa Bay

48.9%

The first release from Ailsa Bay distillery is an NAS peated single malt. The new make spirit initially spends 6 to 9 months in 24 to 100-liter Hudson Baby Bourbon casks. It's then transferred to virgin oak, first-fill, and refill American oak casks for several years. The ultimate vatting is non-chill filtered. A sweet, smoky nose with almonds and walnuts leads into a palate featuring citrus fruit, spicy peat, and cereal notes, with cocoa and soft oak in the finish. (*UK and Nordic availability*) £55

—Vol. 25, #2
