

Jefferson's Reserve Old Rum Cask

45.1%

What happens when 8 year old
bourbon rests in a bourbon barrel-
turned-rum barrel for 14 months?
This is it. Muted caramel, vanilla,
and spice meet salt, dried fruit,
and almond extract, with a short
cereal grain finish. An open mind
will find this interesting. But for
the traditionalist, this isn't
bourbon. I applaud the rum cask
use, but this barrel appears not to
be the perfect marriage for my
glass.
