

Stillhouse Original Moonshine

40%

As mentioned in my column this issue, Stillhouse is packaged in a stainless steel can, much like the ones used for paint thinner.

Labeled "100% corn whiskey."

Clean scent of corn, green corn stalks, and apples. Very similar on the tongue, with just a hint of burn. For what it is, this is not bad; clean, tasty, definitely a good mixer. They have several flavored versions as well. Sourced whiskey.

—Vol. 25, #2
