

Coopers' Craft Straight Bourbon

41.1%

You can actually smell the cooper toasting oak here, so the name carries real meaning. Then cotton candy, fresh-baked rye, vanilla, apple, and caramel come to life. A slight hint of grain becomes more expressive on the tongue, offering bread-like flavors with hints of brown sugar and honey. Short finish with a hint of grain. If you like light-bodied bourbons, this is right up your alley.
