

High West Light Whiskey

46%

This is a batch of 100 barrels of MGP light whiskey, an American whiskey using higher distillation proofs and used cooperage. It reminds me of 1980s Crown Royal, with floral vibrancy, honey, and a slight hint of chocolate, followed by licorice, allspice, and vanilla. Its spice hits early and often with balanced black licorice. Blackberry, blueberry, and ginger come down the final stretch for a nice medium-length finish. Sourced whiskey. (*Distillery only*)

—Vol. 25, #3
