

Crown Royal Blender's Select

45%

Crown Royal develops its bourbon-like house style by using an American-style mashbill of 64% corn, 31.5% rye, and 4.5% malted barley for one of its many component whiskies. From this single component, blender Mark Balkenende selected mature whisky exhibiting sweet flowers, pear juice, vanilla, fresh grain, mild barrel tones, clean dry wood, brisk spices, and a long, glowing finish. Very floral, fruity, and quaffable. (\$55CAD; Ontario only)

—Vol. 27, #1
