

Relativity American Whisky (prototype)

40%

Generously woody with pencil shavings and lumber mingled with chamomile, white flowers, and vanilla on the nose. The light-bodied palate is sweet and floral, with cloying milk chocolate, toasted coconut, and vanilla flavors. It's just a bit simple and boring. *This or whiskey has been matured using alternative aging technology.* Actual Time in Barrel: minimum 6 months; Processing: Distilled in Indiana and aged in new charred oak barrels, then put through a "compression aged" process using new charred oak pieces.

—Vol. 27, #1
