

Johnnie Walker Sweet

Peat

40.8%

Created by blender George Harper, who worked on White Walker, this has nutty toffee, coffee grounds, caramelized sugars, roasted hazelnut in chocolate, an appreciable grain note, plus the titular gentle sweet peat smoke. Toasted oak, chocolate praline, sweet runny caramel, coffee, and a catch of smoke dissipate to leave the smooth flavor of creamy toffee penny candy. An uncut diamond with great potential set against the brilliance of Black Label. £30
