

**High West High Country  
American Single Malt  
(Batch 19104)**

**44%**

Earthy, phenolic, and herbaceous with a wisp of smoke and seaweed, this is certainly characterful. The flavor marries malty sweetness, red fruits, and a peculiar smoke, like a distant burning leaf pile or smoldering smoked jalapeños. While it tastes a bit young, and it's certainly unconventional, this is a very intriguing whiskey, with an ashy finish delivering cocoa and nutty notes. (9,600 bottles)

—Vol. 29, #1
