Is there such a thing as “beach rye?” Wafting breezes carry coconut, almond orgeat, and tropical fruit aromas, along with dried orange rind, chamomile tea, clove, mint, and earthy pecans. The easy-drinking palate has less fruit and more herbs, with licorice, spearmint, and allspice, underpinned by nuts and dry oak. Rounded out with orange blossom water, chai, dark berries, and more spearmint, allspice, and oak on the finish. This should come with a hammock.
