

### Millstone 8 year old

43%

Based in the village of Baarle-Nassau in the Netherlands, the Zuidam distillery was built by genever distiller Fred Van Zuidam in 2002 and is now run by his son Patrick, who started distilling at the age of 14. His single malt is made from windmill-ground barley, given temperature-controlled fermentation, distilled in Holstein stills, and aged in new oak for a period before being racked into older casks. A rich amber color, this expression is ripe and fruity with plenty of red cherry, a little hint of fig, and a little sweet spice. Balanced and rich with a fresh citric farewell this is a classy arrival on the world scene. £59
